

PROFESSIONAL SUMMARY

Senior Product Manager with **6+ years** building enterprise SaaS, cybersecurity, and platform products from discovery through launch, delivering measurable business impact across security analytics, platform strategy, and AI-enabled workflows.

CORE SKILLS

Product: Product Strategy, Roadmap Planning, Product Discovery, Prioritization, PRDs, Backlog Management, Go-to-Market
Execution: Agile/Scrum, User Stories & Acceptance Criteria, Lifecycle Management, KPI Tracking, Product Launches
AI & Analytics: Generative AI, LLMs, RAG, AI Agents & MCP, AI-enabled Workflows, AI Usage Analytics, Product Analytics
Leadership & Tools: Stakeholder Management, Cross-functional Leadership, APIs, SQL, Tableau, Jira, Confluence, Figma

WORK EXPERIENCE

Cloudflare | Senior Product Manager | Feb 2026 – Jun 2026 | Bangalore

- Defined **product strategy and workflows for agent behaviour analytics**, identifying anomalous AI and agent usage through **API activity, MCP traffic, token consumption, and application context** across enterprise environments.
- Designed AI usage monitoring and investigation experiences that translated complex behavioural signals into **explainable insights and actionable workflows** for enterprise security operations teams.
- Owned the roadmap for **UEBA and application intelligence**, prioritising **10+ detection and investigation use cases** based on customer risk, signal quality, business impact, and engineering feasibility.
- Shipped **4 enterprise analytics capabilities** improving anomaly investigation, contextual visibility, and decision-making.
- Led the integration of shared application intelligence across **3 products (Gateway, Access, CASB)**, creating reusable context across policy enforcement and investigation workflows for enterprise customers.
- Accelerated **5 product-development workflows**, including customer-call synthesis, PRD drafting, prototyping, and requirements iteration, using **OpenCode, MCP servers, and Figma AI**.

Cisco Systems | Senior Product Manager Oct 2024 – Jan 2026 | Product Manager Jun 2022 – Sep 2024 | Bangalore

Product Strategy & Growth

- Managed a **\$90M annual enterprise product portfolio**, owning strategy, roadmap planning, lifecycle, and GTM execution.
- Increased **average CLTV by \$50K** via a platform migration strategy that improved adoption of Cisco's next-gen software.
- Identified a **\$250M addressable market opportunity** through structured customer discovery and competitive analysis.

Customer Discovery & 0-to-1 Product Development

- Generated **\$60M in bookings** by identifying an underserved segment and leading a new product from concept to launch.
- Conducted discovery with **10+ customers across 3 markets**, translating workflow gaps into PRDs and roadmap priorities.

Platform Execution & Delivery

- Delivered **10 platform capabilities** contributing **\$30M in incremental revenue** via structured prioritization and planning.
- Unlocked **\$5M in revenue** by accelerating a customer capability and aligning engineering and sales on trade-offs.
- Improved feature velocity by **10%** with a prioritization dashboard strengthening roadmap visibility and team alignment.

Analytics & Cross-functional Leadership

- Saved **20+ hrs/quarter** with an automated Tableau dashboard improving reporting, bookings, and portfolio decisions.
- Partnered with global engineering, sales, and customer success to translate requirements into **4+ strategic RFP wins**.

Recognition

- Received **5 Cisco awards**, including “You Amaze” (**Top 2%**) and multiple “You Inspire” awards for customer impact.

CData Software India | Senior Product Consultant | Feb 2021 – Apr 2021 | Bangalore

- Delivered technical demonstrations and pre-sales consultations for enterprise data-connectivity products spanning **50+ data sources**, translating customer requirements into solution recommendations.

G4S India | Software Developer | Dec 2017 – Jan 2021 | Gurugram

- Boosted system **performance by 77%** (3.7s to 0.75s) by eliminating redundant service calls and tuning scheduling flows.
- Designed the Patrol and Response UI/UX from scratch **for 121K US employees**, decreasing scheduling time by **42%**.
- Reduced average service requests by **55%** in a month by identifying unstated customer needs in break management.
- Boosted usability scores by streamlining the Scheduling UX and standardizing workflows across **100+ features**.
- Mitigated ERP security risks by building **role-based access management**; owned roadmap for the “Events” implementation.

EDUCATION

Indian School of Business (ISB) | PGP in Management, IT Management & Marketing | 2021 – 2022

- Top **10 of 150 teams** in Amazon ACE (e-commerce strategy); Business Technology Club Career Coordinator; **20+ CXO sessions**.

Shri Vaishnav Institute of Technology and Science | B.E., Computer Science | 2013 – 2017

- Awarded **All-Rounder of the Year** for 2 years, selected from 800+ students for leadership, academics, and extracurriculars.
